SUMMARY

Software engineer with 2+ years of experience delivering secure, high-performance applications for more than 90,000 users.
Front-end developer with 2+ year of experience designing and building responsive web design and mobile apps, delivering high-performance applications for more than 90,000 users. Proficient with Angular.js, Vue.js and JS Frameworks, with extensive knowledge of UI and user psychology. Notable achievements include boosting the conversion rate of an existing website by 65% with improved code and design.

EXPERIENCE

CORRECT CLOUD PVT LTD | FRONTEND DEVELOPER

June 2022 – Present

- Engineered to the development and optimization of an Audit application for 90,000+ users using Vue.js, React.js and Angular.js
- Utilized Azure services and Cosmos DB for reliable cloud-based data storage.
- Redesigned and implemented the Audit application using js frameworks.

3 COMMAS TECHNOLOGIES | SOFTWARE ENGINEER INTERN

April 2021 - June 2022

- Led Angular commerce app development: code reviews, performance optimization, and expertise in platforms, databases, APIs, and web services.
- Enhanced user experience by Enhanced user experience by 30% through Agile management and cross-functional collaboration.

PROJECTS

COMANAGE - IT SECURITY APP | DURATION: 1.5 YEARS

Like Zscaler, streamlines server configuration and security with Node.js and Angular.js dashboard also PostgreSQL, yielding a 15% efficiency boost. Real-time monitoring ensures optimal performance. Simplify management with intuitive controls.

Google Cloud Platform - IDENTITY AND ACCESS MANAGEMENT APP DURATION: 0.9 YEARS

Developed a dynamic, scalable web application integrated with Google Cloud Platform (GCP) to enable real-time data communication and processing. The application is designed for high performance and responsiveness, leveraging modern frontend technologies and cloud infrastructure.

Learning Platform - ONLINE LEARNING PORTAL APP DURATION: 2 YEARS

Building a top-notch user interface with Angular, Vue and React. Collaborating with other cross-functional teams to ensure the high-performance of applications. Managing microservices-based NodeJS on server side. Fixed 300+ incidents, including code bugs, development of new features and data fixes
